-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 2 – 8 are rejected under 35 U.S.C. 101 as not falling within one of the four statutory categories of invention. While the claims recite a series of steps or acts to be performed, a statutory “process” under 35 U.S.C. 101 must (1) be tied to another statutory category (such as a particular apparatus), or (2) transform underlying subject matter (such as an article or material) to a different state or thing (Reference the May 15, 2008 memorandum issued by Deputy Commissioner for Patent Examining Policy, John J. Love, titled “Clarification of ‘Processes’ under 35 U.S.C. 101”). The instant claims neither transform underlying subject matter nor positively tie to another statutory category that accomplishes the claimed method steps, and therefore do not qualify as a statutory process.

***Claim Objections***

Claims 5, 7, 13, 15 and 17 are objected to because of the following informalities:

In claim 5, the limitation “if said signal is not greater than said previous maximum peak value,” in line14 should be changed to --if said signal is not greater than said previous minimum peak value,--. Appropriate correction is required.

In claim 7, the limitation “generating said maximum charge coefficient and said maximum discharge coefficient so” in line 2 should be changed to --generating said minimum charge coefficient and said minimum discharge coefficient so--. Appropriate correction is required.

In claim 13, the limitation “if said signal is not greater than said previous maximum peak value,” in line17 should be changed to --if said signal is not greater than said previous minimum peak value,--. Appropriate correction is required.

In claim 15, the limitation “generating said maximum charge coefficient and said maximum discharge coefficient so” in lines 2 - 3 should be changed to --generating said minimum charge coefficient and said minimum discharge coefficient so--. Appropriate correction is required.

In claim 17, the limitation "if said signal is not greater than said previous maximum peak value," in lines 1 - 2 of page 8 should be changed to --if said signal is not greater than said previous minimum peak value,--. Appropriate correction is required.

***Allowable Subject Matter***

Claims 10 – 20 are allowed.
